

I am really thankful that we have stopped getting all those annoying telemarketing calls since we signed up on the Do Not Call list. Those telemarketers are so rude when they call at the most inconvenient times: weekends, during meals. Since we signed up, our unsolicited calls have gone down to almost none. Please do not overturn New Jersey's Do Not Call list. In fact, you should model the federal law after New Jersey's. We are very grateful for the extra peace and quiet from New Jersey's law.
